

For Immediate Release:

MonoSol LLC Announces Expansions

December 15, 2005 – MonoSol LLC, the world leader in specialty water soluble films, announces its laboratory expansion and the relocation of its world headquarters. As part of a comprehensive strategy to grow the company, MonoSol has moved its headquarters from the current Portage, Indiana, USA location to Merrillville, Indiana, USA. The office relocation makes room for expanding the company's extensive laboratories and R&D capabilities in Portage.

MonoSol's recent expansion began in April 2004 with the acquisition of Aquafilm (UK). Now that MonoSol's laboratory expansion and office relocation are complete, the next phase of growth will focus on expanding manufacturing capabilities in the UK. The addition of a state-of-the-art blown extrusion line complements the existing production lines and will increase global capacity to meet the growing demand for water soluble laundry bags as well as detergent and packaging films.

“At MonoSol, we partner with prospective customers to co-develop new products and new applications for packaging unit-doses with water soluble films. Innovation and product development are the cornerstones of our business,” noted P. Scott Bening, President and CEO of MonoSol. “With our expansion program, we've added to our already extensive R&D capabilities and we've streamlined our distribution network in Europe. This allows us to continue to stay one step ahead of the growing interest for water soluble films while providing the best value to our customers.”

About MonoSol LLC

Since introducing their first water soluble film in 1953, MonoSol LLC has been the world leader in the development and commercialization of specialty water-soluble polymer based films. Today, MonoSol offers a wide range of water soluble packaging films, FRP release films, transfer printing, embroidery topping and unique laminated and coated soluble films custom designed for environmentally friendly packaging and disposable systems. MonoSol AF, the U.K.-based manufacturer of Aquafilm brand water soluble laundry bags and embroidery products, is the latest member of the MonoSol group of organizations. MonoSol LLC maintains a global network of dedicated partners to offer sales, service and technical support to its worldwide customer base. With all facilities certified ISO 9001:2000, MonoSol maintains the highest quality standards.
